A Request From SRS

Sally Hargis – SRS Child Care Subsidy Manager

As you know, when a family is approved for child care benefits and has selected you as their child care provider, you receive a notice advising you that benefits have been authorized for those children. If you should receive a notice of eligibility for a child who doesn't actually start coming to you for care within a couple of weeks, please notify the appropriate SRS office. The same would hold true if a child leaves your care before the ending month listed on the eligibility notice and you don't receive notice from SRS. Parents hold the primary responsibility for notifying SRS of changes, but providers can also play an important role in this process if you choose to assist in this way. This will help SRS staff to make sure the information they have is current and that correct benefits are issued to parents. Thank you.
